

VIO 10 Plus

Safe Storage & Transport of Batteries

Measurements	Metric	Imperial
External Dimensions	1200 x 800 x 740 mm	47" x 32" x 29"
Internal Dimensions	1015X615X490 mm	40" x 24" x 19"
Box Weight	145 Kg	
Content Weight (Batteries)	Up to 400 Kg	
Certification Level	4H2/X545/S/XX/IL/DOLAV/ 2024104 US DOT Special Permit DOT-SP-21619*	
Material	Bin – HDPE Lid – HDPE Fabric inlay Filling material – Akkugrain®	
Stackability	Up to 3 boxes	
Handling	• Euro size for efficient logistic and storage handling • Easy and durable locking system for faster containment and operation • Removeable inlay for ideal module fitting • Efficient and stable stacking design • Lightweight solution for optimized transport capacity	
Additional Features	Ticket holder for content tracking	
Optional add-ons	RFID and QR by IML Location tracking Temperature monitoring	

* Tending approval
